

# FENET ABILU

## SOFTWARE ENGINEERING STUDENT

### CONTACT

☎ +251911412529

✉ abilufenet@gmail.com

📍 Ethiopia, Addis Ababa

### EDUCATION

- 2009-2016

Learn at muka kule primary school

- 2016-2020/2021

Learn at fitche secondary school

. 2020/2021

Completed grade 12 and took national exam  
.2021/2022

joined Addis Ababa university and  
currently I am studying software engineering at  
Addis Ababa university

### SKILLS

- website development in  
React, Next.js, html, css, js,  
node.js, nest.js
- python language
- java language
- machine learning
- Teamwork
- Mysql
- packet tracer
- Time Management
- Leadership
- Effective Communication
- Critical Thinking

### LANGUAGES

- English
- Amharic (Fluent)
- Afan Oromo (Fluent)

### PROFILE

A highly motivated 4th-year Software Engineering student in the AI stream at Addis Ababa University with strong academic performance (CGPA: 3.6) and a passion for technology since childhood. I have consistently ranked top of my class from an early age and continue to pursue excellence through continuous learning and hands-on development. I am a skilled full-stack developer with practical experience in Python, JavaScript, Node.js, React, and NestJS, along with a solid foundation in Java. I am eager to apply my technical skills to real-world challenges, contribute to impactful projects, and grow within the software and AI industry.

### WORK EXPERIENCE

#### 1. Frontend Intern – Kuraz Technologies

- Completed a successful frontend development internship, collaborating with a professional engineering team.
- Converted Figma designs into responsive, production-ready web interfaces.
- Improved UI/UX consistency and optimized components for performance and reusability.

#### 2. Full-Stack Web Development Projects

- **Food Delivery Platform (Node.js & React):** Developed a full-stack food delivery application with user authentication, restaurant listings, order management, and responsive UI. Implemented secure APIs, optimized state management, and ensured a smooth ordering workflow.
- **Sociofen – Mini Social Media App (Full-Stack):** Built a complete social platform featuring user profiles, posts, likes, comments, and real-time interactions. Improved UI/UX, implemented secure backend logic, and ensured scalable performance.
- **Social Media Management App (Laravel & React):** Created a platform that allows users to schedule posts, manage multiple accounts, track engagement, and analyze performance. Built REST APIs using Laravel and developed an intuitive React-based dashboard.
- **Farmer Hub (In Progress) – Market Connectivity Platform:** Currently working on a full-stack solution that connects farmers directly with buyers to reduce market gaps and improve product accessibility. Developing product listings, buyer-seller matching, secure transactions, and a clean UX workflow.
- **Portfolio of 10+ Complete Projects:** Successfully built and deployed more than ten full-stack applications across various domains, gaining strong experience in backend architecture, frontend development, API design, database systems.

## WORK EXPERIENCE

---

### Machine Learning & Data Analysis Experience

- 10 Academy – Machine Learning, Data Engineering & Data Analysis Program:
- Currently enrolled in an intensive professional program covering machine learning, data engineering pipelines, statistical analysis, and real-world data problem-solving.
- Machine Learning & Robotics Courses (AAU):
- Taking university-level courses in machine learning and robotics, focusing on supervised/unsupervised learning, model evaluation, feature engineering, and intelligent systems.
- Foundational ML & Data Analysis Skills (Python):
- Gained strong foundational knowledge in machine learning concepts, data preprocessing, exploratory data analysis (EDA), and model building using Python, including libraries such as NumPy, Pandas, Matplotlib, and Scikit-learn.

## CERTIFICATES

---

- **Frontend Developer Internship Certificate – Kuraz Technologies**

Awarded for successfully completing a professional frontend development internship, demonstrating strong skills in modern web technologies and UI implementation.

- **Data Structures Certification – Skillbridge**

Completed a structured program focused on algorithms, data structures, and problem-solving techniques essential for software development.

- **Online Technology Courses (Various Platforms)**

Completed multiple online courses to broaden technical knowledge, including web development, backend engineering, machine learning fundamentals, and software best practices.

# THANK YOU
